

ICAT evaluation

Motivation, Boundaries and Requirements

Elettra Sincrotrone Trieste

So far

- Elettra joined the ISPyB collaboration in 2018
- Diamond Light Source software suite
- Some changes to the frontend and backend
- Synchweb updated to 2023

Why

- This is the right time to evaluate others LIMS
 - **XRD1** Q3 2027
 - **uXRD** Q2 2028
- Large adoption: ESRF, EMBL, ALBA, BESSY ?
 - Larger developer community
 - Same UI/UX among several facilities
- Security concerns about php7 end of life in 2022 (NIS 2)
- MXCuBE ready

Boundaries and requirements

- VUO already has a data catalog and handle sample shipment
- Only for MX beamlines
- LIMS must be easy to maintain and easy to change
